CAREER OBJECTIVE

Computer Science undergraduate with a solid understanding of Python, SQL, data structures, and software development. Hands-on experience in developing machine learning models, data-driven solutions, and web applications through Pandas, NumPy, Scikit-learn, Power BI, and MySQL. Seeking an entry-level Software Engineer or Data Analyst role to develop scalable and insight-driven solutions.

EDUCATION

B.Tech in Computer Science & Engineering **2023-2027**
Vignan Institute of Technology & Science CGPA: 9.16

Senior Secondary (XII), CBSE **2021-2023**
Kendriya Vidyalaya Sangathan, Nalgonda Percentage: 77.00

Secondary (X), CBSE **2021**
Kendriya Vidyalaya Sangathan, Nalgonda Percentage: 87.20

SKILLS

Technical Skills

Languages: Python, C, SQL

Technologies & Libraries: HTML, CSS, MySQL, Pandas, NumPy, Scikit-learn

Tools: Git, GitHub, Power BI, Tableau, MS Excel, VS Code

Core Computer Science: Data Structures & Algorithms, Database Management Systems (DBMS), Operating Systems

Soft Skills: Problem Solving, Analytical Thinking, Adaptability, Leadership, Teamwork

PROJECTS

E-Commerce Fraud Detection System | Python, Scikit-learn, Flask

- Analyzed 50K+ transaction records and engineered 4+ behavioral indicators to capture anomalies, improving detection capability in highly skewed data scenarios.
- Built and deployed machine learning pipeline with imbalance handling, improved model accuracy to 92% and 0.96 ROC-AUC across 2 validation splits, enabling real-time prediction via web interface.

Employee Attrition Risk Prediction & Workforce Insights Dashboard | Python, Pandas, NumPy, Scikit-learn, Power BI

- Explored 1,470 employee records from the IBM HR Analytics dataset to uncover patterns affecting employee turnover through exploratory data analysis (EDA) and data preprocessing.
- Implemented a Logistic Regression classification pipeline and produced an interactive Power BI dashboard presenting 8+ workforce indicators to highlight departmental retention trends.

Movie Review Sentiment Classification System | Python, Natural Language Processing, Pandas, Scikit-learn

- Processed 50,000 IMDb movie reviews using NLP techniques including tokenization, stop-word removal, and text normalization to prepare high-dimensional textual data.
- Developed TF-IDF feature vectors and trained supervised machine learning models, achieving ~82–85% accuracy in sentiment classification.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 – AI Foundations Associate (Oracle University)
- NPTEL Certification – Database Management System (DBMS) Coordinated by IIT Kharagpur
- SQL (Basic) Skill Certification – HackerRank
- Python 101 for Data Science – IBM Cognitive Class
- Generative AI Fundamentals (SAWIT.AI Learnathon) – GUVI, Supported by NASSCOM

ACHIEVEMENTS & ACTIVITIES

- Scored 94.74 percentile in Naukri Campus Young Turks 2025 (India-level skill contest), receiving a Certificate of Merit for outstanding performance in employability and aptitude assessment.
- Secured 29th position in the Vibe Coding Challenge (Inter-College Edition) hosted by BM Institute of Engineering & Technology, and awarded a Certificate of Excellence.
- Obtained the NCC 'A' Certificate after completing Annual Training Camp under 31(T) Telangana Battalion, reflecting discipline and leadership training.
- Served as an active NSS volunteer, contributing to community initiatives and social responsibility programs.
- Attended industry-oriented workshops on Power BI analytics and DevOps practices, strengthening practical technology exposure.

LANGUAGES: English, Hindi, Telugu (Native)

Hobbies & Interests: Sudoku, Badminton, Cooking, and Exploring new technologies
